

## Spay/Neuter & I.D. Your Pet

***It's The Right Thing To Do!***

*Kauai has too many homeless pets.  
Now more convenient, discounted  
services are available island-wide.*

*Kauai Humane Society is partnering  
with the local veterinary community  
to increase the number of animals  
identified and sterilized. By working  
together, we hope to significantly  
reduce the number of homeless and  
lost pets on Kauai.*

*Funding for this program is provided  
by a grant from the Kauai County  
Council and private donations from  
caring community members.*

***On behalf of the animals,***

**THANK YOU!**

**Community  
Pet  
Spay - Neuter  
& I.D. Program**

# Be part of the solution and protect your pet's health, spay/neuter and I.D. your pet today!

## Why spay/neuter?

Spaying or neutering your pet virtually eliminates the chance of breast or prostate cancer when they get older.

Pets will be less likely to roam and will stay home.

Most important, they won't produce more homeless pets!

## What is a microchip?

A microchip is a permanent form of identification and never falls off. It is a small glass bead about the size of a rice grain and is safely and easily inserted underneath the skin between the pet's shoulders.

As long as your current address and phone number are registered with the Kauai Humane Society, your pet can be quickly and safely returned home if ever lost. The one-time cost of \$6 provides a lifetime of protection.

The state dog license law establishes dog ownership and has been in effect in Hawaii for over 100 years. The cost is \$2.10.

Hundreds of pets are lost monthly on Kauai and many are never reclaimed by their owners. Providing I.D. will help insure a safe trip home for your beloved pet.

## At the Kauai Humane Society:

**FREE** spay/neuter services for those residents with low-fixed incomes, unemployed or who receive any form of public subsidy (food stamps, public housing, WIC funds, etc.). In addition, free services are available for those caring individuals feeding feral cats to prevent the birth of more homeless kittens (humane traps are available daily and require a \$50 deposit to borrow for two weeks).

## At the Private Veterinary Clinic:

**DISCOUNT COUPONS** to reduce the cost of the surgery and encourage pet owners to help reduce the number of homeless pets on Kauai.

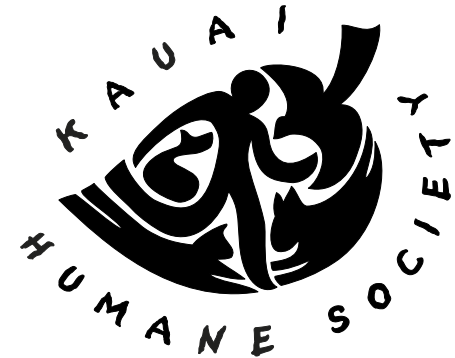

- \$60 discount for female dogs 50 lbs. or larger
- \$40 discount for smaller female dogs, male dogs, and female cats
- \$20 discount for male cats

*All pets must be microchipped at a cost of \$6 and all dogs must be licensed at a cost of \$2.10 to participate in this program.*

To schedule your pet's spay/neuter and I.D. appointment at the Society or to pick up a discount coupon for services with your private veterinarian, call or stop by:

Tuesday - Friday            8am - 6pm  
Saturday - Monday        8am - 4pm

*Animal pick-up and drop off services are available by request for those unable to drive.*
